Introduction and Subsidiary Locator

The *Foreign Origin Meat or Meat Products, Ruminants* section covers beef extract, bone stock, bouillon cubes, dehydrated soup containing pieces and chunks of ruminant meat, and fresh, cooked, cured and dried meat of ruminants.

Ruminant meat and meat products from BSE-affected countries are prohibited entry.

Regulations provide the authority to regulate specific products such as fresh (chilled or frozen) meat, cured and dried meat, and cooked meat from affected foreign countries. Policy has been established to control other products that are imported which may pose a risk to U.S. agriculture.

When a VS permit does **not** authorize entry, use **Table 3-12-1** which directs you to the final regulatory action to take.

TABLE 3-12-1 Where to Find Regulatory Action on Ruminant Meat and Meat Products

If the importation is:	And is from a country:	And:	Then:
Beef bone stock		→	GO to Table 3-12-2
Beef extract		→	
Bouillon cubes		→	
Cooked meat		→	GO to Table 3-12-5
Cooked, shelf-stable meat in a hermetically sealed package (determine shelf stability in cargo just as you would in baggage—see Table 2-3-3)	Affected with BSE	→	1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
	Free from BSE	→	RELEASE
Cured and dried meat		→	GO to Table 3-12-10
Dehydrated soup mixes containing pieces and chunks of meat	Flavored with beef extract or bone stock	→	GO to Table 3-12-2
	Containing pieces of meat	→	GO to Table 3-12-3
Edible offal	Affected with BSE	→	1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
	Free from BSE	Accompanied by a certificate of origin ¹	REGULATE as meat and run through the first column (cooked, shelf stable, fresh, etc.)
		Lacks the certificate of origin	1. DO NOT RELEASE the HOLD 2. CONTACT PPQ-VRS-AQI or PPQ-VRS-HQ personnel (see Appendix H)
Fresh (chilled or frozen) meat		→	GO to Table 3-12-14
Suet or products containing suet		→	GO to Table 3-12-4
Tallow (rendered fat)	Affected with BSE	→	1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
	Free from BSE	→	RELEASE

- 1 A government certificate stating that the edible offal was derived from ruminants from (a) a region (*must state region*) **other than** those considered by the USDA to be affected with BSE; and (b) during processing, there was no commingling with any ruminant material from a region considered by the USDA to be affected with BSE.

TABLE 3-12-2 Action to Take on Beef Extract, Beef Bone Stock, Bouillon Cubes, or Dehydrated Soup Mix Flavored with Beef Extract or Bone Stock

If the country of origin is known to be:	And the importation is:	Then:
Affected with BSE or FMD and BSE		1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
Affected with FMD, but not BSE	Accompanied by a meat inspection certificate stating that the meat product has been concentrated by boiling	RELEASE
	Lacking the certification described above	1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the option of obtaining the appropriate certification 3. If the importer is unable to obtain the appropriate certification, PROVIDE with the appropriate options (see Table 2-2-11)
Free from both BSE and FMD		RELEASE
Free from BSE and FMD, but FMD/SR		

TABLE 3-12-3 Action to Take on Dehydrated Soup Mixes Containing Pieces of Ruminant Meat

If the soup mix is from a country known to be:	And:	Then:
Affected with BSE or both with BSE and FMD		1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
Affected with FMD only	Is accompanied by a meat inspection certificate declaring that: <ul style="list-style-type: none"> ◆ All meat is free of bones ◆ All meat has been cooked to a minimum internal temperature of 175° F (79.4° C) 	RELEASE
	Lacks either the certification or the certificate described above	1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the option of obtaining the appropriate certification 3. If the importer is unable to obtain the appropriate certification, PROVIDE with the appropriate options (see Table 2-2-11)
Free from BSE and FMD		RELEASE

TABLE 3-12-4 Action to Take on Suet or Products Containing Suet ¹

If the country of origin is known to be:	Then:
Affected with BSE or BSE in combination with FMD	1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
Affected solely with FMD	RELEASE
Free from both BSE and FMD	

1. Products which have suet as an ingredient include various puddings (Christmas, holiday, plum, or Yorkshire puddings) and fruit duff.

Cooked Meat of Ruminants

TABLE 3-12-5 Action to Take on Cooked Meat of Ruminants¹

If the country of origin is known to be:	And the country is known to be:	Then:
Affected with BSE		1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
Free from BSE	Affected with FMD	GO to Table 3-12-8
	Free from FMD	RELEASE
	Free from FMD with S/R	GO to Table 3-12-6

¹ Cooked, shelf-stable meat in a hermetically sealed can from a country affected with BSE is prohibited.

Cooked Meat of Ruminants from a Country Known to Be Free from BSE and FMD, but FMD/SR

Review the accompanying documents to verify that a meat inspection certificate is present with the statements cited in 9CFR 94.11(c)(1)-(4) which are summarized as follows:

- ◆ The slaughtering establishment is **not** permitted to receive animals that originated in, or have ever been in, or that have been aboard a means of conveyance at the time such means of conveyance called at or landed at a port in a region listed in §94.1(a) as a region affected with rinderpest or foot-and-mouth disease
- ◆ The slaughtering establishment is **not** permitted to receive meat or other animal products derived from ruminants or swine which originated in such a FMD affected region, or meat or other animal products from a FMD free region transported through a FMD affected region except in a container sealed with serially-numbered seals of the national government of the noninfected region of origin
- ◆ The meat or other animal product covered by the certificate was derived from animals born and raised in a region listed in §94.1(a)(2) as free of FMD and the meat or other animal product has **never** been in any region in which FMD existed

- ◆ The meat or other animal product has been processed, stored, and transported to the means of conveyance that will bring the article to the United States in a manner to preclude its being commingled or otherwise in contact with meat or other animal products that **do not** comply with the conditions in the certificate

Continue to **Table 3-12-6**.

TABLE 3-12-6 Action to Take on Cooked Meat of Ruminants from a Country Known to Be Free from BSE and FMD, but FMD/SR

If the importation is:	And the certificate:	Then:
Accompanied by a meat inspection certificate	Has the required certification [9CFR 94.11(c)(1)-(4)]	RELEASE
	Lacking the required certification	1. DO NOT RELEASE the HOLD
Not accompanied by a meat inspection certificate	—————→	2. PROVIDE the importer with the appropriate options (see Table 2-2-11)

Cooked Meat of Ruminants from a Country Known to Be Affected with Only FMD

The following determinations are for boneless, cooked, frozen meat.

Insure movement of meat to an approved defrost facility as follows:

Insure Movement to APHIS Approved Defrost Facility

- ◆ Port of arrival must be equipped with APHIS approved rapid defrost facilities; see **Figure 3-12-1 on page 3-12-8** for a list of ports equipped with rapid defrost facilities which are approved by APHIS
- ◆ Meat must be consigned to one of the defrost facilities listed for the port of arrival (where off-loaded from the carrier)
- ◆ Meat **cannot** be transported over land from one port to another; see if the port of arrival and defrost facilities are listed in **Figure 3-12-1**

Not all FSIS approved facilities are APHIS approved rapid defrost facilities.

Continue on to **Table 3-12-7**.

TABLE 3-12-7 Verify That the Port of Arrival Is Equipped with Approved Defrost Facilities

If the port of arrival is:	Then:
One listed on the previous pages, equipped with APHIS approved rapid defrost facilities	CONTINUE in this section
Not one listed on the previous pages	1. DO NOT RELEASE the HOLD 2. CONTACT PPQ-VRS-AQI or PPQ-VRS-HQ personnel for further action (see Appendix H)

Importations of cooked, frozen beef (including sample importations) aboard a vessel or aircraft may transit a U.S. port for off loading and inspection at another U.S. port (which becomes the port of arrival) **ONLY IF** the importation remains aboard the vessel or aircraft at the first U.S. port.

**Determine if
Meat Is from a
Foreign
Establishment
Approved for
Cooked Beef**

Determine that the importation is from a foreign establishment approved for cooked beef (see **on page 3-12-14**).

List of Foreign Establishments Approved for Cooked Beef

Country	Establishment Number	Establishment Name and Location
Argentina	13	Swift-Armour S.A.A., Rosario, Santa Fe
	1311	Friar, S.A., Santa Fe City, Santa Fe
	1373	Frigorífico Cepa S.A., Venado Tuerto, Province of Santa Fe

FIGURE 3-12-2 List of Foreign Establishments Approved for Cooked Beef

- 1 Number changed; formerly SIF 736.
- 2 Newly-approved plant.
- 3 Meat cooked in Establishment #2 is shipped from Establishment #8. Continue on to [Table 3-12-3](#). The foreign establishment should be identified in the additional certification on the meat inspection certificate stated in [Table 3-12-8](#).

TABLE 3-12-8 Cooked Meat of Ruminants from a Country Known to Be Affected Only with FMD

If the ruminant meat:	And the certificate:	And is from:	Then:
Is accompanied by a meat inspection certificate	Has the required certification 9CFR 94.4(b)(1)-(2) and the additional certification ¹	A foreign establishment approved for cooked beef	<ol style="list-style-type: none"> 1. COMPLETE a USDA-PPQ-FSIS Notification for Perishable Cooked Ruminant or Cooked Swine Meat from Restricted Countries² Sheet 2. AUTHORIZE movement to the defrost facility³ at the port where the meat is off-loaded; NEVER authorize shipment of the meat to a defrost facility at another port) 3. DO NOT complete VS Form 16-78 since the product is not moving to another port
		Not from an approved foreign establishment approved for cooked beef	<ol style="list-style-type: none"> 1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
Lacks the required certification			

1 A government of origin certificate that declares the following:

- ◆ All bones have been completely removed in the country of origin
- ◆ The meat has been thoroughly cooked in the country of origin

And the certificate must additionally state the following:

- ◆ The beef covered by this certificate was thoroughly cooked throughout *[name and establishment number of approved plant]* under the conditions approved by the meat inspection service of *[country of origin]* to prevent contact with uncooked products

- 2 Send this FSIS Notification Sheet by courier to the FSIS defrost facility. Attach a copy of the notification sheet to the import documents and keep the documents on file for 5 years from the date of arrival of the shipment.
- 3 If the facility is **not** located within the port boundaries, then ensure that the container is sealed prior to movement. **Do not** complete Form 16-78.

Action to Take Based on Results of the Pink Juice Test

Use [Table 3-12-9](#) to determine the action to take based on the results of the pink juice test.

TABLE 3-12-9 Determine Action to Take Based on Pink Juice Test Results

If FSIS notifies you that the product:	Then:
Does not contain any pink juices	RELEASE
Contains pink juices	1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 3-12-12)

Cured and Dried Meat of Ruminants

TABLE 3-12-10 Cured and Dried Meat of Ruminants

If the meat is arriving from:	And the country of origin is known to be:	And is:	And:	Then:
A country affected with BSE			→	GO to Table 3-12-11
A country free from BSE	Affected with BSE		→	1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
	Free from BSE	Affected with FMD regardless of level of risk	→	GO to Table 3-12-13
		Free from FMD	FMD/SR	GO to Table 3-12-12
			No special requirements	RELEASE

Cured and Dried Meat of Ruminants Arriving from a Country Known to Be Affected with BSE

TABLE 3-12-11 Cured and Dried Meat¹ of Ruminants Arriving from a Country Known to Be Affected with BSE

If the meat originated in a country:	And is:	And:	Then:
Free from BSE	Free from FMD	Appropriately certified ²	RELEASE
		Lacks the appropriate certification ²	1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
	Affected with FMD	Appropriately certified ³	RELEASE
		Lacks the appropriate certification ³	1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
Affected with BSE			

- 1 For example, bresaola from Italy or bundnerfleisch from Switzerland.
- 2 Accompanied by an original certificate issued by an official veterinarian of the exporting country with the following certifications:
 - ◆ All raw material of ruminant origin came only from [name of country], a BSE-free country, on [date], under lot number [number of lot]
 - ◆ An export certificate documenting these facts, issued by an official veterinarian of the national government of the country from which the beef originates, is on file
 - ◆ During processing, there was no commingling or exposure to any other animal products
- 3 Accompanied by an original certificate issued by an official veterinarian of the exporting country with the following certifications:
 - ◆ All raw material of ruminant origin came only from [name of country], a BSE-free country, on [date], under lot number [number of lot]
 - ◆ An export certificate documenting these facts, issued by an official veterinarian of the national government of the country from which the beef originates, is on file
 - ◆ All bones have been completely removed in the region of origin. The meat has been held in an unfrozen condition for at least 3 days immediately following slaughter. The product has been thoroughly cured and fully dried to the extent that it may be stored and handled without refrigeration, that is, the water-protein ratio in the wettest portion of the product does **not** exceed 2.25 to 1
 - ◆ The products were produced and processed in plants approved for the importation of their products into the United States, handled in a sanitary manner, and prepared under the continuous supervision of an inspector under control of the national meat inspection system; and said meat products are **not** adulterated or misbranded as defined by the regulations governing meat inspection of the U.S. Department of Agriculture, and are in compliance with requirements at least equal to those in Federal Meat Inspection Act and said regulations
 - ◆ During processing, there was no commingling or exposure to any other animal products

Cured and Dried Meat of Ruminants from a Country Known to Be Free from BSE and FMD, but FMD/SR

The requirements cited in 9CFR 94.4(a)(1)-(4) were established for processed meat from a country of origin known to be affected with FMD. However, cured and dried meat from a country of origin known to be free from FMD/SR may be certified as being processed according to these requirements and would be allowed entry. For details of the requirements cited in 9CFR 94.4(a)(1)-(4), go to ***Cured and Dried Meat of Ruminants from a Country of Origin Known to Be Affected with Only FMD*** on page 3-12-18.

Otherwise, review the accompanying documents to verify that a meat inspection certificate is present with the statements cited in 9CFR 94.11(c)(1)-(4) which are summarized as follows:

- ◆ The slaughtering establishment is **not** permitted to receive animals that originated in, or have ever been in, or have been aboard a means of conveyance at the time such means of conveyance called at or landed at a port in, a region listed in §94.1(a) as a region affected with rinderpest or FMD
- ◆ The slaughtering establishment is **not** permitted to receive meat or other animal products derived from ruminants or swine which originated in such a FMD affected region, or meat or other animal products from a FMD free region transported through a FMD affected region except in a container sealed with serially-numbered seals of the national government of the noninfected region of origin
- ◆ The meat or other animal product covered by the certificate was derived from animals born and raised in a region listed in §94.1(a)(2) as free of FMD and the meat or other animal product has **never** been in any region in which FMD existed
- ◆ The meat or other animal product has been processed, stored, and transported to the means of conveyance that will bring the article to the United States in a manner to preclude its being commingled or otherwise in contact with meat or other animal products that **do not** comply with the conditions in the certificate

Continue on to **Table 3-12-12**.

TABLE 3-12-12 Cured and Dried Meat of Ruminants from a Country Known to Be Free from BSE and FMD, but FMD/SR

If the importation is:	And the certificate:	Then:
Accompanied by a meat inspection certificate	Has the required certification 9CFR 94.11(c)(1)-(4)	RELEASE
	Lacks the required certification	1. DO NOT RELEASE the HOLD
Not accompanied by a meat inspection certificate		2. PROVIDE the importer with the appropriate options (see Table 2-2-11)

Cured and Dried Meat of Ruminants from a Country of Origin Known to Be Affected with Only FMD

Determine if a foreign meat inspection certificate is present for cured and dried meat of ruminants from a country of origin known to be affected with only FMD. This certificate must accompany the importation and must have been issued by an authorized official of the national government of the country of origin as cited in 9CFR 94.4(a)(4).

The certificate must state that the meat has been processed according to the conditions cited in 9CFR 94.4(a)(1)-(3) which are summarized below.

- ◆ All bones were completely removed in the country of origin
- ◆ The meat was held in an unfrozen, fresh condition for at least 3 days immediately following the slaughter of the animals from which it was derived
- ◆ The meat was thoroughly cured and fully dried to the extent that the product is shelf stable without refrigeration

Continue to [Table 3-12-13](#).

TABLE 3-12-13 Cured and Dried Meat of Ruminants from a Country Known to Be Affected with Only FMD

If the importation is:	And the certificate is:	Then:
Accompanied by a meat inspection certificate	Has the required certification [9CFR 94.4(a)(1)-(3)]	RELEASE
	Lacks the required certification	1. DO NOT RELEASE the HOLD
Not accompanied by a meat inspection certificate		2. PROVIDE the importer with the appropriate options (see Table 2-2-11)

Fresh (Chilled or Frozen) Meat of Ruminants

TABLE 3-12-14 Fresh (Chilled or Frozen) Meat of Ruminants

If the country of origin is known to be:	And is known to be:	And the level of risk is:	Then:
Free from BSE	Free from FMD	→	GO to Table 3-12-15
	Free from FMD with S/R	→	Go to Table 3-12-17
	Affected with FMD	Unassigned risk level	1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)
		Negligible risk level	GO to Table 3-12-19
Affected with BSE	→		1. DO NOT RELEASE the HOLD 2. PROVIDE the importer with the appropriate options (see Table 2-2-11)

Fresh Meat of Ruminants from a Country Known to Be Free from BSE and FMD

Determine if adequate proof of origin is present for fresh meat of ruminants from a country known to be free from BSE and FMD. For example, the importation is accompanied by an official meat inspection certificate, or the packaging labels show the country of origin.

TABLE 3-12-15 Fresh Meat of Ruminants from a Country Known to Be Free from BSE and FMD

If there is:	And the importation:	Then:
Adequate proof of origin	Did not transit a country known to be affected with FMD	RELEASE
	Transited a country known to be affected with FMD	GO to Table 3-12-16
Inadequate proof of origin	Is a commercial importation	1. DO NOT RELEASE the HOLD 2. CONTACT PPQ-VRS-AQI or PPQ-VRS-HQ personnel for further action (see Appendix H)
	Is in passenger baggage	REFUSE ENTRY

Fresh Meat of Ruminants from a Country Known to Be Free from BSE and FMD Which Transited a Country Known to Be Affected with FMD

Review the accompanying documents to verify that a meat inspection certificate is present for fresh meat of ruminants from a country known to be free from BSE and FMD which transited a country known to be affected with FMD. Determine if the importation met the transiting requirements cited in 9CFR94.1(c)(2)-(5) which are summarized as follows:

- ◆ The meat is placed in the transporting carrier in a hold or compartment which was sealed in the country of origin by an official of that country with serially-numbered seals approved by APHIS¹
- ◆ The serial numbers of the seals used to seal the hold or compartment of the transporting carrier are recorded on the foreign meat inspection certificate which accompanies the meat
- ◆ Upon arrival of the carrier in the U.S. port of arrival, you find the seals intact, and there is no evidence that the seals were tampered with
- ◆ You find the meat to be as represented on the foreign meat inspection certificate

Continue on to [Table 3-12-16](#).

¹ Sealing prevents contact of the meat with any other cargo, prevents handling of the meat after the hold or compartment is sealed, and prevents the loading of any cargo into and the removal of any cargo from the sealed hold or compartment while en route to the United States.

TABLE 3-12-16 Fresh Meat of Ruminants from a Country of Origin Known to Be Free from BSE and FMD Which Transited a Country Known to Be Affected with FMD

If the transiting requirements are:	Then:
Met	RELEASE
Not met	1. DO NOT RELEASE the HOLD 2. CONTACT PPQ-VRS-AQI or PPQ-VRS-HQ personnel for further action (see Appendix H)

If the importation is break-bulk cargo, then all seals must be checked at the first port of arrival.

Fresh Meat of Ruminants from a Country Known to Be Free from BSE and FMD, but FMD/SR

For fresh meat of ruminants from a country known to be free from BSE and FMD, but FMD/SR, review the accompanying documents to verify that a meat inspection certificate is present with the statements cited in 9CFR 94.11(c)(1)-(4) which are summarized as follows:

- ◆ The slaughtering establishment is **not** permitted to receive animals that originated in, or have ever been in, or have been aboard a means of conveyance at the time such means of conveyance called at or landed at a port in a region listed in §94.1(a) as a region affected with rinderpest or FMD
- ◆ The slaughtering establishment is **not** permitted to receive meat or other animal products derived from ruminants or swine which originated in such a FMD affected region, or meat or other animal products from a FMD free region transported through a FMD affected region except in a container sealed with serially-numbered seals of the national government of the noninfected region of origin
- ◆ The meat or other animal product covered by the certificate was derived from animals born and raised in a region listed in §94.1(a)(2) as free of FMD and the meat or other animal product has **never** been in any region in which FMD existed
- ◆ The meat or other animal product has been processed, stored, and transported to the means of conveyance that will bring the article to the United States in a manner to preclude its being commingled or otherwise in contact with meat or other animal products that **do not** comply with the conditions in the certificate

See [Table 3-12-17](#).

TABLE 3-12-17 Fresh Meat of Ruminants from a Country Known to Be Free from BSE and FMD, but FMD/SR

If the importation is:	And the certificate:	Then:
Accompanied by a meat inspection certificate	Has the required certification [9CFR 94.11)(c)(1)-(4)]	GO to Table 3-12-18
	Lacks the required certification	1. DO NOT RELEASE the HOLD
Not accompanied by a meat inspection certificate		2. PROVIDE the importer with the appropriate options (see Table 2-2-11)

TABLE 3-12-18 Fresh Meat of Ruminants from a Country Known to Be Free from BSE and FMD, but FMD/SR with the Required Certification (9CFR 94.11(c)(1)-(4))

If the importation:	Then:
Did not transit a country known to be affected with FMD	RELEASE
Transited a country known to be affected with FMD	1. REVIEW the meat inspection certificate to determine if the importation met the transiting requirements cited in 9CFR 94.1(c)(2)-(5) which are summarized below 2. CONTINUE on to Table 3-12-19

A summary of the transiting requirements cited in 9CFR 94.1(c)(2)-(5) follows:

- ◆ The meat is placed in the transporting carrier in a hold or compartment which was sealed in the country of origin by an official of that country with serially-numbered seals approved by APHIS²
- ◆ The serial numbers of the seals used to seal the hold or compartment of the transporting carrier are recorded on the foreign meat inspection certificate which accompanies the meat
- ◆ Upon arrival of the carrier in the U.S. port of arrival, you find the seals intact, and there is no evidence indicating that the seals were tampered with
- ◆ You find the meat to be as represented on the foreign meat inspection certificate

² Sealing prevents contact of the meat with any other cargo, prevents handling of the meat after the hold or compartment is sealed, and prevents the loading of any cargo into and the removal of any cargo from the sealed hold or compartment while en route to the United States.

TABLE 3-12-19 Verify Transiting Requirements of Fresh Ruminant Meat from a Country Known to Be Free from BSE and FMD, but FMD/SR and Meeting Certification Requirements

If the transiting requirements are:	Then:
Met	RELEASE
Not met	1. DO NOT RELEASE the HOLD 2. CONTACT PPQ-VRS-AQI or PPQ-VRS-HQ personnel for further action (see Appendix H)

If the importation is break-bulk cargo, then all seals must be checked at the first port of arrival.

Fresh Meat of Ruminants from a Country Known to Be Free from BSE, but at Negligible Risk for FMD

At this time, no countries are considered to be at negligible risk for FMD.
